Upon visiting the property to make the property compliant to the QLD legislation the required number of smoke alarms may be greater than what the landlord / property manager has marked on the completed form. There could also be additional electrical works like protecting the lighting circuits with earth leakage circuit breakers (RCD / Safety Switches) to comply with AS3000:2018 which we won't be able to determine until we attend to site. **After 4th free visit a fee of \$129.00 per visit will incur for false activations and faulty alarms. Free quotation to upgrade will be provided.*
